

Carton Clamp Attachments

Amongst the more handy additional parts utilized for the forklift is the Carton Clamp. It is meant for handling many things not secured on a pallet like furniture, appliances, frozen cartons or canned goods. Large rubber-faced pads squeeze the side of the load really gently. The load is then carefully carried and transferred to either the trailer or the warehouse. Carton Clamps were particularly designed to be utilized in the appliance, warehousing, electronics and beverage industries. Industries that make use of these clamps save plenty of money in view of the fact that they don't need to obtain, maintain, store or ship pallets. Carton Clamps allow for pallet free handling, greatly saving lots of warehouse room.

Standard features on all Carton Clamps, side-shifting allows for a much more accurate alignment to be attained throughout the position of the load. Revolving aluminum pads as well as a slim arm design allows for close piling of the load to be maintained. The close piling gets rid of useless spaces between rows of stock and additional space is obtained because the pricey pallets are also eliminated.
